Center for Policing Equity

2015 to present

Vice President of Law Enforcement Strategy

2015 to present

Provide leadership and promote partnerships with police departments, community advocates and political entities. The Center for Policing Equity is a nonprofit organization whose mission is to end disparities in law enforcement by providing evidence-based research on racial bias and use of force. The Center produces analyses identifying and reducing causes of racial disparities. Distinguished by taking numbers off the spreadsheet and providing actions for the police and the communities they serve.

Achievements:

- Mapping the Science of Justice Convening 2018.
- Responsible for The National Justice Database reaching over 250 law enforcement agencies across the nation and covering over two thirds of the United States Population.
- Reviewed and advised the Seattle Police Department on use of force utilized during mass gathering events.

Salt Lake City Police Department

1991 to 2015

Chief of Police

2006 – 2015

Appointed to the position of Chief of Police in March 2006. Accountable for leadership of a 603-employee organization, including 445 sworn police officer positions. Provide necessary measures and direction for the protection of life and property, prevention of crime, vehicular traffic control and apprehension of criminals. Responsible for \$57 million annual budget, including state and federal grant awards. Work with residents and political entities in determining direction of community well being and safety.

Achievements:

- Selected as a member of the “Enlightened Fifty” most influential leaders in the State of Utah.
- Selected as one of six Police Chiefs in the nation to meet with President Barack Obama to discuss the Administration’s plan and direction concerning gun violence in America.
- Recognized in June 2013 by the Utah National Guard with their annual Minuteman Award for contributions to the well being of the State of Utah.
- Honored by the University of Utah in Recognition of continuous service and commitment to “Keeping the Dream Alive” through the annual Rev. Dr. Martin Luther King, Jr. Rally and Parade.
- Received the United States Attorney’s Office District of Utah Award, for Outstanding Service to the Community by demonstrating leadership, diplomacy, and tact in dealing with high profile protest situations.
- Testified before the United States House of Representatives Committee on the Judiciary, Subcommittee on Immigration Policy and Enforcement concerning H.R. 3808, the “Scott Gardner Act.”
- Chosen by the Salt Lake Tribune as Utahn of the Year for 2011. The state’s largest newspaper cited his handling of several high profile protest incidents and stated, “Burbank’s stature as a community leader, including a willingness to endure threats and criticism over his position on immigration enforcement, is noteworthy at a time of ebbing confidence in those elected to govern.”
- Honored by the Utah Chapter Parents of Murdered Children, Inc. for tireless effort to serve the many homicide families and a willingness to give support and to give hope.
- Recognized by the Latin America Chamber of Commerce with Simon Bolivar Award for service to the Latino community.
- Received the Arch Madsen Humanitarian Award from the Inclusion Center for Community and Justice in recognition of dedication to creating a more inclusive community.
- Testified before the United States House of Representatives Committee on the Judiciary, Subcommittee on the Constitution regarding H.R. 963, the “See Something, Say Something Act of 2011.”
- Traveled to Israel on behalf of The American Israel Public Affairs Committee (AIPAC) to further Israeli-American relations.
- Received the Caesar Chavez peace and Justice Award by the Utah Coalition of La Raza.
- Nominated and elected in 2010 by peers to the position of First Vice President for the Major Cities Chiefs Association, an assembly of the 69 largest policing agencies in the United States and Canada.
- Honored in 2010 for work on behalf of the women and children who live, play and grow in Salt Lake City by the YWCA as the Public Official of the Year.
- Recognized by the Utah Minority Bar Association as their Honoree of the Year for service to minority communities and dedication to diversity.
- Testified before the United States House of Representatives Committee on the Judiciary, Subcommittee on the Constitution, Civil Rights and Civil Liberties, Hearing on Racial Profiling and the Use of Suspect Classifications in Law Enforcement Policy.

- Received the Downtown Alliance Chairman's Award for service to the downtown community and the City.
- Responsible for creation of the Valley Police Alliance in 2009, a cooperative effort of 15 Salt Lake valley police agencies serving as Chair during its inception.
- Received special recognition in 2009 from the American Civil Liberties Union of Utah for work in protecting immigrant civil rights.
- Received the Vicki Cottrell Community Hero Award from the Utah National Alliance on Mental Illness for assistance to individuals suffering from mental illness.
- Recognized by Latino Community Center for dedication to community policing in building and maintaining a great foundation with the Latino community.
- Recognized by the Islamic Society of Greater Salt Lake in appreciation for dedicated service to the Islamic community.
- Traveled to Israel at the invitation of Anti-Defamation League (ADL) to exchange policing practices and ideas.
- In 2007, the Department received high praise for its Emergency Action Team coordination and response to the Trolley Square shooting incident.
- Recognized for management of the Destiny Norton abduction and murder investigation. The seven-day investigation resulted in the conviction of the suspect five months following the crime.

Bureau Commander Support Services

2005 – 2006

Managed Internal Affairs, Training, Dispatch, Records and Personnel Services. Accountable for managing the operation of the Police Department, preparing the annual budget and ensuring the functionality of police services to the community. Served as the acting Chief during the absence of the Chief. Provided leadership and direction for personnel, focusing the Police Department on service to the City of Salt Lake.

Achievements:

- Developed five-year departmental guidelines to ensure continuity of goals and to provide a strategic plan for the Police Department.
- Designed and produced *Interacting with the Police*, a pamphlet outlining the rights of the public when encountering police officers.

Division Commander Internal Affairs / Training

2005

Responsible for the oversight of complaints against personnel and direction of resulting investigations, including ensuring discipline and grievances are handled in accordance with applicable regulations, policies, laws and appropriate memoranda. Accountable for managing in-service training of sworn officers and civilian employees as well as recruit officer training. Participating in the development and preparation annually of the Police Department budget while maintaining the largest portion of the overall Department budget.

Achievements:

- Oversaw the development, writing and implementation of Departmental Electrical Energy Device policy.

- Participated as Chair of the Police Physical Fitness Committee with responsibility for the evaluation and potential implementation of department-wide, mandatory officer fitness standards.

Executive Officer to Chief Dinse

2002 – 2005

Represented the Chief of Police while functioning as a liaison with Salt Lake City Mayor Rocky Anderson, the Salt Lake City Council, the Civilian Review Board and the public. Prepared correspondence, presentations and speeches for Chief Dinse. Coordinated Department participation at Major Cities Chiefs' conferences. Consulted with and advised Chief Dinse in matters of policy, procedure, discipline and personnel.

Achievements:

- Designed and facilitated implementation of Employee Management and Information Tracking System (EMITS), a system established to more efficiently monitor employee career progress.
- Working in cooperation with the Salt Lake Police Association, drafted and instituted a new Police Department discipline policy. This new policy represents a dramatic and innovative shift in practice and approach to discipline management.
- Facilitated the West Point Leadership Program, a college level course established to enhance individual leader capability and provide insight into enlightened and proven supervisory techniques.

Olympic Venue Commander

2000 – 2002

Planned, organized and implemented the security plan for the Salt Lake Olympic Square, encompassing nine square blocks of downtown Salt Lake City and employing a staff of over one-thousand local, state and federal employees including Utah National Guard troops. Acted as Police Department liaison with the United States Secret Service.

Achievements:

- Recognized by Director Brian Stafford, United States Secret Service, for outstanding cooperation in support of their protective mission.
- Recognized by Governor Michael Leavitt, State of Utah, for contribution to the law enforcement volunteer program.
- Recognized by Major General Brian L. Tarbet, Adjutant General Utah National Guard, for exceptional meritorious service in support of the games.

Pioneer Bicycle Squad Sergeant

1999 – 2000

Daily supervision of ten bicycle officers and direction of squad's patrol functions in the downtown area. Coordinated in-service bicycle training as well as annual officer selection school. Participated in the planning and organization of "First Night" activities.

Achievements:

- Awarded Meritorious Unit Citation in recognition for outstanding service to the downtown area.
- Regular guest of *La Vox La Gente*, a local radio program designed to improve community and police relations.
- Organized and instated program access within the community, with a goal of providing equal access to police resources and services to all members of the community regardless of ethnicity or socio-economic status.

A. Team Leader

1998 – 1999

Supervised the Sniper section including participating as an active member of the squad. Coordinated planning and deployment of a thirty person tactical unit during high hazard warrant service, barricaded subject incidents and hostage situations.

Training Officer

1996 – 1998

Responsible for in-service and recruit training in all aspects of police work including firearms, ASP, aerosol defensive tools, defensive tactics and police policy and procedure. Coordinated and instruct civilian police academies designed to provide members of the public insight into police training and response.

Achievements:

- Awarded Distinguished Unit Citation in recognition for service to the Police Department and the community.
- Managed Career Path Program as coordinator; responsible for scheduling, testing, policy and program maintenance, including record keeping and participant relations.
- Developed and instituted Police Rifle Program. Drafted policy, instructional guidelines and instructed initial four classes.

A. Team Member

1992 – 1998

Participated in the service of over 200 high hazard search warrants, numerous barricaded subject incidents and several high profile hostage incidents. Responsible for organizing weekly in-service training including scheduling, determining training topics, instructor coordination and class instruction as team training coordinator.

Achievements:

- Awarded Distinguished Unit Citation in recognition for service to the City during the Salt Lake City Public Library hostage incident.
- Recognized as a Hero in the Community by Whittier Elementary School.

Uniformed Gang Officer

At the specific request of the department, participated in a thirty-day pilot gang unit. The effectiveness of the unit and the increasing problem of gang violence necessitated the assignment

be made permanent. Participated in daily enforcement activities designed to reduce violence and limit civilian exposure to harm.

Achievements:

- At the request of the Salt Lake Area Gang Project, instructed officer safety at the sixth annual Utah Gang Conference, presented to individuals in attendance from throughout the western United States.
- Developed Street Survival course for the Utah Gang Investigators' Association and instructed at numerous conferences held in the State.

Other Work Experience

DG Pro Shop – Salt Lake City, UT
Owner/Manager

1989 – 1991

Responsible for inventory, ordering, cash receipts, sales and customer relations as a partner in a small, retail sporting goods store. Managed between three to five part-time employees including payroll, taxes and social security.

Professional Squash Player

1988 – 1991

Turned professional in the fall of 1988 and as a member of the World Professional Squash Association (WPSA), achieved a number 38 world ranking by 1990. Responsible for instruction of private and group squash lessons as well as clinics and exhibitions.

Achievements:

- 1st Place H.H. Bennett Cup, 1990
- 1st Place Utah State Open, 1990, 1989 and 1988
- 1st Place Intermountain Open, 1989

Deseret Gymnasium – Salt Lake City, UT
Assistant Athletic Director

1984 – 1991

Supervised employees, organized and directed squash, racquetball and handball tournaments. Provided fitness consultation for members. Responsible for daily gym administration, personnel issues as well as maintaining member relations.

Achievements:

- Organized the Deseret Gym World Professional Squash Championship. Raised sponsorship money, organized promotion and advertising and handled player relations and ticket sales.

Fin USA

1988 – 1989

Director of Squash Sales – Salt Lake City, UT

Responsible for the advertising, promotion and sales of squash equipment nationally.

STOP AND FRISK IN CHICAGO

ACLU of Illinois

March 2015

ACLU

AMERICAN CIVIL LIBERTIES UNION
of ILLINOIS

I.

Executive Summary

In the past year, the nation's attention has turned to police practices because of high profile killings, including Michael Brown in Ferguson, Missouri, Tamir Rice in Cleveland, Ohio, and Eric Garner in New York. But concerns about policing extend beyond the use of force and into the everyday interactions of police with community members.

In black and Latino communities, these everyday interactions are often a "stop and frisk." Under the U.S. Supreme Court decision in *Terry v. Ohio*, 392 U.S. 1 (1968), officers are allowed to stop you if the officer has reasonable suspicion that you have been, are, or are about to be engaged in criminal activity. Once you are stopped, if an officer has reasonable suspicion that you are dangerous and have a weapon, the officer can frisk you, including ordering you to put your hands on a wall or car, and running his or her hands over your body. This experience is often invasive, humiliating and disturbing.

Chicago has failed to train, supervise and monitor law enforcement in minority communities for decades, resulting in a failure to ensure that officers' use of stop and frisk is lawful. This report contains troubling signs that the Chicago Police Department has a current practice of unlawfully using stop and frisk:

- Although officers are required to write down the reason for stops, in nearly half of the stops we reviewed, officers either gave an unlawful reason for the stop or failed to provide enough information to justify the stop.

VII. Recommendations	17
Appendix A: Stop and Frisk in Other Cities	19

- Stop and frisk is disproportionately concentrated in the black community. Black Chicagoans were subjected to 72% of all stops, yet constitute just 32% of the city's population. And, even in majority white police districts, minorities were stopped disproportionately to the number of minority people living in those districts.
- Chicago stops a shocking number of people. Last summer, there were more than 250,000 stops that did not lead to an arrest. Comparing stops to population, Chicagoans were stopped more than four times as often as New Yorkers at the height of New York City's stop and frisk practice.

In the face of a systemic abuse of this law enforcement practice, Chicago refuses to keep adequate data about its officers' stops. Officers do not identify stops that result in an arrest or ordinance violation, and they do not keep any data on when they frisk someone. This failure to record data makes it impossible for police supervisors, or the public, to identify bad practices and make policy changes to address them.

The abuse of stop and frisk is a violation of individual rights, but it also poisons police and community relations. As recognized by the Department of Justice, the "experience of disproportionately being subjected to stops and arrests in violation of the Fourth Amendment shapes black residents' interactions with the [the police], to the detriment of community trust," and "makes the job of delivering police services ... more dangerous and less effective." See the Appendix, for summaries of DOJ reports.

In order to restore community trust, the City should make the following policy changes:

- **COLLECT DATA ON FRISKS AND MAKE IT PUBLIC.**

Currently, officers are not required to record when they frisk someone. If there is no arrest, these searches are never subject to judicial review. Absent a record,

Chicagoans
were stopped
more than

4x

as often as
New Yorkers
at the height
of New York
City's stop
and frisk
practice.

supervisors and the public have no means to determine whether officers' searches are lawful. Officers should record frisks, the reason for the frisk (which must be separate from the reason for the stop), and the results of the search (i.e., whether there was a weapon or other contraband and if so, what type). This should be accomplished by expanding and making permanent the Illinois Traffic Stop Statistical Study Act, which currently requires police departments to collect and publicly report data about traffic stops.

- **COLLECT DATA ON ALL STOPS AND MAKE IT**

PUBLIC. Officers only record stops on contact cards when the stops do not lead to an arrest or ticket for an ordinance violation. Officers should record all stops, including those that lead to an arrest or ticket, and that data should be merged with the stops/contact card database or otherwise made identifiable and available to the public. In New York, this data proved to be a valuable benchmark to assess the legitimacy of the practice. Supervisors and the public should be able to compare how often officers' stops lead to an arrest.

- **REQUIRE TRAINING.** Officers should receive regular training on the legal requirements for stops and frisks and how to record them properly. In a response to a recent FOIA request to Chicago, the City was not able to identify a single officer who received follow-up training (post-police academy) on how to lawfully conduct a stop and frisk since May 2011. Given that half of the reviewed stops did not contain a legal justification, this training is necessary.

- **REQUIRE OFFICERS TO ISSUE A RECEIPT.** Officers should provide civilians with a receipt at the end of pedestrian stops, traffic stops, and consensual encounters. This receipt should state the officer's name, the time and place of the encounter, and the reason for the encounter. Receipts will ensure a record of the event and facilitate any civilian complaints regarding the encounter.

Supervisors
and the
public should
be able to
compare how
often officers'
stops lead to
an arrest.

II.

Chicago's History of Stop and Frisk

A review of how *Terry* stops have been used in Chicago demonstrates a persistent problem – inadequate training, supervision and monitoring of law enforcement in minority communities.

In the early 1980s, the *Chicago Reporter* found that more than 100,000 citizens were arrested for “disorderly conduct” during sweeps of high-crime neighborhoods. These arrests were usually preceded by a stop and frisk. These cases almost never resulted in convictions because the police generally did not show up in court to defend the arrest. An ACLU lawsuit successfully challenged this practice and, as a result, disorderly conduct arrests and their accompanying stops and frisks plummeted.¹ However, these unnecessary stops and arrests created feelings of alienation in African American and Latino communities in Chicago.

In the 1990s, *Terry* stops re-emerged under the guise of the so-called “gang loitering ordinance.” That ordinance – later struck down by the U.S. Supreme Court in another ACLU lawsuit – resulted in more than 40,000 arrests over 18 months of enforcement.² These massive numbers of people were arrested and searched ostensibly for refusing to follow dispersal orders, but the reality was that the ordinance was a vehicle for stopping and searching young men of color.

In the early 2000s, unwarranted stops and searches were still commonplace. In 2003, the ACLU filed a lawsuit on behalf of Olympic Gold medalist Shani Davis and several others, challenging

a series of humiliating stop and frisk searches by Chicago police.³ Data collected in connection with that suit showed a pattern of unjustified stops and searches, resulting in the unnecessary detention of young people, mostly young people of color. As a result of the *Davis* lawsuit, the Chicago police made changes to their policy of stopping and searching on the streets, including a requirement to record why stops occur. However, the manner in which the City implemented the recordkeeping has proved insufficient.

Today, Chicago's reliance on stop and frisk has increased dramatically and legitimate doubts about the constitutionality of the City's method of executing these stops have only increased.

The CPD does not record stops that lead to arrests or tickets and makes no record of frisks.

III.

Stop and Frisk in Chicago – What the Data Shows

Chicago police officers are required to record and justify their stops on “contact cards.” However, as discussed in detail in Part IV, the Chicago Police Department's data collection presents problems with analyzing stops. For example, the CPD does not record stops that lead to arrests or tickets and makes no record of frisks. And prior to April 2014, officers used contact cards to record voluntary interactions with civilians, making it difficult to isolate stops and frisks.⁴ This report analyzes a sample of 250 written justifications for stops that occurred in 2012 and 2013. It also analyzes four months of contact card data from 2014, after a CPD policy change limited the use of contact cards to stops and the enforcement of loitering ordinances.

³ See Complaint for Plaintiffs, *Davis v. City of Chicago*, 219 F.R.D. 593 (N.D. Ill. 2004), (No. 03 C 2094), 2003 WL 23800673.

⁴ Compare Special Order S04-13-09, effective date Feb. 23, 2012, available at <http://www.chicagopolice.org/2013MayDirectives/data/a7a57be2-12a864e6-91c12-a864-e985efd125ff521f.html>, and Special Order, 04-13-09, I(C), April 3, 2014, available at directives.chicagopolice.org/lt2014/data/a7a57be2-12a864e6-91c12-a864-e985efd125ff521f.html (discontinuing the routine documentation of “Citizen Encounters.”). The ACLU of Illinois had repeatedly advocated with the City for this change, which was positive, but did not go far enough.

A. A SIGNIFICANT NUMBER OF STOPS ARE NOT JUSTIFIED BY REASONABLE SUSPICION.

According to the landmark Supreme Court case, *Terry v. Ohio*, 392 U.S. 1 (1968), police officers may only conduct stops when they have a reasonable suspicion that a person has committed or will commit a crime. They may only do a frisk if they have a reasonable suspicion that the person they stop is armed and dangerous. The basis for reasonable suspicion must go beyond an officer's vague "hunch" or personal biases, and the officer "must be able to point to specific and articulable facts" that justify such an intrusion.

We reviewed 250 randomly selected narrative fields from the contact card database.⁵ Even though the department requires that officers record the reasons for the stop, for *half* of the stops we reviewed, the officer did not record legally sufficient reasons to establish reasonable suspicion. Stops made without sufficient cause violate the Fourth Amendment guarantee against unreasonable searches and seizures.

In some narrative fields, the officers stated that they stopped people for reasons unrelated to a suspicion of a crime. For example, officers stopped people for associating with others who were suspicious⁶ or because they walked away from officers,⁷ neither of which would justify a *Terry* stop. In other narrative fields, officers failed to provide enough information for anyone, including their supervisors, to determine whether the stops were justified. For example, officers stopped many people who "matched a description," which would only be legitimate if there was a sufficient explanation of how they matched the description.⁸ In other cases, officers provided so little

For half of the stops we reviewed, the officer did not record legally sufficient reasons to establish reasonable suspicion.

⁵ The Chicago Police Department's Freedom of Information Act office would agree only to produce the narrative sections of 300 contact cards, asserting there was a burden due to the need to redact personally identifying information from the narratives. The narrative section is the field where officers are to record the reasons for a stop. The ACLU randomly selected 300 entries from 18,943 contacts in the contact card database. These contacts were from June 1, 2012 through August 31, 2012 and March 1, 2013 through May 31, 2013. During this time period, the CPD included records of various kinds of police interactions in this database – not just stops. The CPD ran a word search of terms selected by the ACLU to identify stop and frisks in that broader database. It is possible that some records of stops did not contain the search terms. This resulted in the 18,943 cards from which the 300 entries were randomly selected. We identified 252 of the 300 narratives as describing stops.

⁶ *People v. Lee*, 214 Ill. 2d 476, 486, 828 N.E.2d 237, 245 (2005) (finding probable cause "to arrest a particular individual does not arise merely from the existence of probable cause to arrest another person in the company of that individual"); *People v. Surles*, 2011 IL App (1st) 100068, ¶ 34, 963 N.E.2d 957, 965 (2011) (applying *Lee* and finding that association with someone engaged in criminal activity not sufficient for reasonable suspicion under *Terry*).

⁷ *In re Rafeal E.*, 2014 IL App (1st) 133027, ¶ 29, *reh'g denied* (Aug. 19, 2014), *appeal denied*, No. 118281, 2014 WL 5619892 (Ill. Oct. 30, 2014) (refusing to expand *Wardlow* to circumstances where the individual is "walking" rather than engaging in a "headlong flight").

information that it was impossible to determine if the stop could be justified, such as merely labeling a person as “suspicious” without additional facts.⁹

The following are examples of officers’ narrative explanations that do not justify a stop:

suspicious person. name check clear

field interview conducted with the subject regarding a recent home invasion in the area. protective pat down conducted. name check clear.

Subject observed loitering on the corner of Augusta/ Monticello. As R/Os approached for F/I subject looked in R/Os direction and began walking southbound on Monticello.

All of the narratives are available on the ACLU of Illinois’ website.

Supervisors are required to review the facts and circumstances of each individual stop, correct the officer, and if necessary, recommend training or discipline to officers who have failed to provide a legal justification for a stop.¹¹ Based on our review of

⁹ *People v. Washington*, 269 Ill. App. 3d 862, 867, 646 N.E.2d 1268, 1272 (1995) (“Because no evidence of the offender’s appearance had been introduced, the trial court had no opportunity to determine whether the description of the offender and the physical characteristics of the defendant were similar enough to justify the detention of the defendant.”).

⁹ *People v. Croft*, 346 Ill. App. 3d 669, 676, 805 N.E.2d 1233, 1240 (2004) (“stopping an individual because he looks ‘suspicious’ ... without more, is insufficient to establish reasonable suspicion”). See also *Terry v. Ohio*, 392 U.S. 1, 21 (1968) (“And in justifying the particular intrusion the police officer must be able to point to specific and articulable facts which, taken together with rational inferences from those facts, reasonably warrant that intrusion.”).

¹⁰ *People v. Slaymaker*, 2015 IL App (2d) 130528, ¶ 20 (finding no reasonable suspicion for a stop and search because of “bulging”).

¹¹ Special Order, 04-13-09, V(C)(1)(c), effective Jan. 7, 2015.

these stops, both police officers and supervisors need additional training on when a stop is legally justified and more resources should be dedicated to officer supervision.

In a response to a recent FOIA request to Chicago, the City was not able to identify a single officer who received follow-up training (post-police academy) on how to lawfully conduct a stop and frisk since May 2011.

B. AFRICAN AMERICANS ARE PROPORTIONALLY STOPPED AT A HIGHER RATE.

A review of the contact card database for the four-month period of May through August 2014 indicates that African Americans are disproportionately subjected to stops when compared to their white counterparts.¹² Black Chicagoans were subjected to 72% of all stops, yet constitute just 32% of the city's population.¹³

Also, there are more stops per capita in minority neighborhoods. For example, in the minority district Englewood there were 266 stops per 1000 people, while in the predominately white district Lincoln/Foster there were 43. While this may be the result of a plan to address crime in those neighborhoods, we strongly question the legitimacy of this enforcement approach. We defer an empirical analysis of this practice to our next report on Chicago Police Department practices.

In any event, the difference in stop rates among different races also occurs outside minority communities. In Chicago's predominantly white police districts—Near North, Town Hall, and Jefferson Park—the disparity between black population and percentage of stops is even starker than city-wide data. For example, as seen in the charts below, although Jefferson Park's African American population is just 1%, African Americans make up almost 15% of all stops.

Stops by Race

Chicago Population by Race

¹² This dataset does not include cards categorized as "dispersals." Similar patterns are found in the truncated 2012-2013 data described in footnote 5.

¹³ Chicago population of 2,684,481 and race percentages come from 2011 census data of police beat populations as analyzed and made available by Professor Wesley Skogan of Northwestern University. It does not include populations at Cook County Jail, Metropolitan Correctional Center of Chicago, or the Cook County Juvenile Center. Unrounded percentages equal less than 100 due to a small number of individuals with "unknown" race.

District 18: Near North

District 19: Town Hall

District 16: Jefferson Park

C. CHICAGO OUTPACES NEW YORK IN RATE OF STOPS

There were more than 250,000 stops that did not lead to an arrest in Chicago for the time period of May 1, 2014 through August 31, 2014. Comparing stops to population, Chicagoans were stopped at a far higher rate than New Yorkers at the height of New York City's stop and frisk practice in 2011.¹⁴

Stops Per 1000 People May-Aug

¹⁴ NYPD Stop, Question and Frisk Report Database, NYC.GOV, available at http://www.nyc.gov/html/nypd/html/analysis_and_planning/stop_question_and_frisk_report.shtml. We have removed the stops that resulted in summons or arrest from the New York database so we are comparing similar datasets. New York City population of 8,405,837 is the 2013 estimate from www.quickfacts.census.gov, accessed on January 30, 2015.

IV.

Unconstitutional Stops and Frisks Damage the Relationship Between Police and the Community

Black Chicagoans disproportionately bear the highest numbers of stop and frisks, and half of stops are not justified by the officers. The United States Department of Justice (“DOJ”) has recognized that when stop and frisk programs do not comply with constitutional principles and minorities are disproportionately stopped, there is a grave impact on the relationship between police and the community. The DOJ recently wrote a report on Newark, New Jersey, finding that the stop and frisk program failed to comply with constitutional principles and disproportionately stopped African Americans.¹⁵ The DOJ found that the “experience of disproportionately being subjected to stops and arrests in violation of the Fourth Amendment shapes black residents’ interactions with the NPD, to the detriment of community trust, and makes the job of delivering police services in Newark more dangerous and less effective.”¹⁶ The same can be said for Chicago.

¹⁵ *Investigation of the Newark Police Department*, UNITED STATES DEPARTMENT OF JUSTICE, CIVIL RIGHTS DIVISION, at 2 (July 22, 2014) <http://www.justice.gov/usao/nj/Press/files/pdf/2014/NPD%20Findings%20Report.pdf> [hereinafter *Newark DOJ Report*].

¹⁶ *Newark DOJ Report* *supra* note 25, at 2; see also Statement of Interest of the United States, at 10, *Floyd v. City of New York*, 959 F. Supp. 2d 540 (S.D.N.Y. 2013) (No. 08 CV 1034), 2013 WL 8017535 (“Officers can only police safely and effectively if they maintain the trust and cooperation of the communities within which they work, but the public’s trust and willingness to cooperate with the police are damaged when officers routinely fail to respect the rule of law.”).

These disparities might be explained by racial profiling, or by officers' implicit bias. The Chicago Police Department has a written policy that "expressly prohibits 'racial profiling' and 'other bias based policing.'"¹⁷ But often, especially when decisions are subjective, people can be unknowingly influenced by implicit bias and not realize their decisions are influenced by race.¹⁸ In assessing the Seattle Police Department, the DOJ recognized that sometimes "biased policing is not primarily about the ill-intentioned officer but rather the officer who engages in discriminatory practices subconsciously. ... Understanding this phenomenon is the first step toward safe and effective policing."¹⁹ Federal law and Illinois law prohibit not just intentional discrimination, but also policies that result in discrimination – even when a person does not make a conscious decision to discriminate.²⁰

Despite its legal obligation to refrain from policies that cause a racially disparate impact, the Chicago Police Department's recordkeeping is a barrier to determining whether officers are engaged in biased policing. Neither police supervisors nor members of the public can do comprehensive analysis. Under existing CPD policy, there is no way to identify all stops – including stops which lead to arrests. Further, officers do not record or justify frisks. Therefore, unlike in other cities, we cannot assess how often the stops lead to an arrest, who is frisked and why, or how often frisks result in contraband.

Consistently, when faced with similar constitutional violations and disparities in other cities like Newark, Seattle, and LA, the DOJ has required better data collection to provide transparency and to ensure better practices.²¹

Unlike in other cities, we cannot assess how often the stops lead to an arrest, who is frisked and why, or how often frisks result in contraband.

²¹ See e.g. *Newark DOJ Report supra* note 25, at 4 ("The NPD further must collect and analyze data related to stops, searches, and arrests, so that it can minimize the disparate impact of its enforcement efforts and avoid bias in policing."); *Seattle DOJ Report supra* note 29, at 8; Consent Decree, *United States v. City of Los Angeles*, LAPDONLINE.ORG, http://assets.lapdonline.org/assets/pdf/final_consent_decree.pdf; see also Third Report to Court and Monitor on Stop and Frisk Practices for *Plaintiff, Bailey v. City of Philadelphia* (2013) (C.A No 10-5952), available at http://www.aclupa.org/download_file/view_inline/1015/198/ (report on data recorded as part of settlement with a lawsuit brought by the ACLU of PA).

V.

Chicago's Data Collection and Oversight of Stop and Frisks Is Insufficient

Even though there are troubling signs that the Chicago Police Department's use of stop and frisk is unlawful, the Chicago Police Department does not record stop and frisks in a way that reflects the full picture of what is happening on the streets of Chicago. Chicago does not have a single database of all stops available to the public and officers make no records of frisks.

The City is well aware of the problems associated with the lack of a comprehensive stops database. The ACLU has repeatedly asked the City to set up such a database and to conform to best practices as outlined by the United States Department of Justice. WBEZ has also reported on how the City's poor data practices have kept the practice hidden from appropriate scrutiny.²²

Chicago's recordkeeping practices place our city increasingly out of step with other major cities across the country. New York City and Newark, New Jersey have made their stop and frisk data publicly available online.²³ Other cities like Philadelphia, New Orleans, and Los Angeles have collected this data for review by the Department of Justice.²⁴ See Appendix for a review DOJ investigations and remedies. Chicago too should have a public, comprehensive database of stops and frisks to aid police supervisors in their review of officers and to make this practice more transparent to the public.

²² See Elliott Ramos, *Poor data keeps Chicago's stop and frisk hidden from scrutiny*, WBEZ, (Sept. 12, 2013), available at <http://www.wbez.org/news/poor-data-keeps-chicagos-stop-and-frisk-hidden-scrutiny-108670>.

A. THERE IS NO SINGLE DATABASE CONTAINING ALL STOP AND FRISKS.

In Chicago, police officers are required to record *Terry* stops on “contact cards.”²⁵ However, they are only required to use a contact card to record when and why they stop someone if it does not lead to an arrest.²⁶ For arrest reports, there is no instruction for officers to identify arrests that were based on a *Terry* stop.²⁷ As a result, not all *Terry* stops are recorded in the contact card database or otherwise identified as stops.

This recordkeeping deficiency makes it impossible to calculate an important measure of the abusiveness of the stops – the rate of innocent people stopped compared to all stops. In New York City, where such data is available to the public, it was possible to compare the number of stops of innocent people to the number of all stops, including those that led to arrest. Studies showed that 88% of people stopped between January 2004 and June 2012 were never arrested or issued a summons.²⁸ In Chicago, it is impossible for the public – or the police department itself – to determine how often people who are stopped are charged with a crime.

²⁵ Special Order, S04-13-09, Part III (B), effective Jan. 7, 2015. Chicago Police Department Special Orders, General Orders, and the forms cited in this report are available at <http://directives.chicagopolice.org/directives/>.

²⁶ *Id.*

²⁷ See CPD-11.420, Form Preparation Instructions, available at <http://directives.chicagopolice.org/lt2014/forms/CPD-11.420-A.pdf>.

²⁸ *Floyd v. City of New York*, 959 F. Supp. 2d 540, 558-9 n. 16 (S.D.N.Y. 2013), *appeal dismissed* (Sept. 25, 2013).

B. THE CHICAGO POLICE DEPARTMENT DOES NOT MONITOR WHEN AND WHY PEOPLE ARE FRISKED.

The Chicago Police Department's order on contact cards does not require officers to record when they frisk or pat down a civilian. Also, officers are not required to record all facts establishing reasonable suspicion that the subject is armed and dangerous. If a stop and frisk does not lead to criminal charges, no judge will ever review whether it was lawful. And since stops and frisks occur on the street, without proper documentation, supervisors cannot assess whether they are lawful. Supervisors thus have no opportunity to review the constitutionality of these frisks, and there is no disclosure of this information to the public.

Officers are also not required to separately identify when a frisk is associated with an arrest. Therefore, there is no record of the total number of frisks or how often weapons or other contraband are found as a result. The frequency of how often weapons or other contraband is found is one benchmark of the propriety of a stop and frisk program. For example, in New York City, fewer than 2% of frisked people were found with weapons.²⁹

If a stop and frisk does not lead to criminal charges, no judge will ever review whether it was lawful.

VI.

Other Illinois Cities

We have begun the process of sending FOIA requests to other Illinois cities about their use of stop and frisk and about data collection by their police departments. This will be the subject of a future report.

To date, we have learned that while some cities do not collect any information when an officer conducts a stop and frisk, several other Illinois cities use forms similar to Chicago's contact cards to record

²⁹ *Id.* at 559 n. 16.

this data. We have not identified any city in Illinois that records comprehensive stop and frisk data and regularly makes its data public as a means to promote transparency in policing. This indicates that the data collection problems are not just a Chicago issue, but need to be addressed statewide.

VII.

Recommendations

This report is one of many recent reports showing ongoing racial disparities in encounters between police and members of the general public in Illinois. The lack of data collection is a major impediment to understanding how stop and frisk policy is actually carried out on the streets. Several improvements need to be made to provide greater transparency and make it possible for supervisors to fully review stops and frisks.

- a. **Expand the Illinois Traffic Stop Statistical Study Act to cover sidewalk stops and frisks.** The Study Act requires police departments to collect and publicly report data about traffic stops.³⁰ This critical law, which was sponsored in 2003 by then-State Senator Barack Obama, should be expanded to collect data on pedestrian stops and frisks and make the data public. Expanding the Study Act would solve several problems: (1) Chicago and other cities across Illinois currently do not maintain a comprehensive public record of *Terry* stops; (2) Chicago and other Illinois cities have no record of frisks—including the basis for the frisk or whether contraband was obtained; and (3) Chicago, unlike several other major cities, does not make regular public disclosures about stops and frisks. Data collection is a critical supervisory tool and necessary for the transparency needed to build public trust.

The Study Act should be expanded to collect data on pedestrian stops and frisks and make the data public.

³⁰ Illinois Public Act 98-0686 (Ill. 2014). The ACLU of Illinois recently published a report about the CPD's traffic stops, based on Study Act data, which showed racial disparities similar to those documented in this report on CPD sidewalk stops. See CPD Traffic Stops and Resulting Searches in 2013, ACLU OF ILLINOIS (Dec. 26 2014), <http://www.aclu-il.org/cpd-traffic-stops-and-resulting-searches-in-2013/>.

- b. **Require all police to issue a receipt (or other documentation) to all civilians they interact with, including during traffic stops, sidewalk stops, and consensual encounters.** This receipt should state the officer's name, the time and place of the encounter, and the reason for the encounter. Such receipts will facilitate any civilian complaints regarding the encounter.

- c. **Require training on the legal requirements for a stop and frisk and how to properly document them.** In a response to a recent FOIA request to Chicago, the City was not able to identify a single officer who received follow-up training (post-police academy) on how to lawfully conduct a stop and frisk since May 2011. FOIAs on this issue to other cities in Illinois are pending.

Appendix A:

Stop and Frisk in Other Cities

NEWARK, NJ

In 2011, the U.S. Department of Justice launched an investigation into the stop and frisk practices of New Jersey's largest city, Newark. Much of the data reviewed was collected under the leadership of Garry McCarthy, who now heads the Chicago Police Department.³¹

The DOJ reviewed thousands of officers' "field inquiry reports" and found that officers did not write down any reason at all for 16% of all stops.³² Of the reports that did contain the rationale for the stop, officers failed to articulate reasonable suspicion 75% of the time.³³ The DOJ found that "black people in Newark have been stopped and arrested at a significantly higher rate than their white and Hispanic counterparts [and] [t]his disparity is stark and unremitting."³⁴ Between January 2009 and June 2012, 80% of stops were of black individuals, yet Newark's population was just 54% black.³⁵

In February 2014, the ACLU of New Jersey released a report that showed that there continues to be an unreasonably high number of stop and frisks in Newark, especially of black citizens, and that only 25% of all stops result in an arrest or summons.³⁶

PHILADELPHIA

In 2010, the ACLU of Pennsylvania filed a lawsuit against the city of Philadelphia alleging that the city's police were illegally stopping and frisking thousands of civilians without reason and based on their race.³⁷ The lawsuit was settled in 2011 when the police department agreed to collect data on their stop and frisk practices and make the information available in an electronic database.³⁸ The settlement agreement also mandated that police officers not stop civilians based only on vague rationale like "loitering" or "acting suspiciously," and that they limit investigative stops to when there is reasonable suspicion.³⁹ After the police officers were retrained on these issues and new protocols were adopted regarding stop and frisks, plaintiffs continued monitoring the electronic data for thousands of stops. As of February 2015, plaintiffs and the police agreed that over 30% of stops lacked a sufficient rationale and that the significant racial disparities in stops and frisks could not be explained by other factors such as localized crime rates.⁴⁰

NEW YORK CITY

New York City may prove to be the best lesson in the inefficacy of stop and frisks. NYPD has conducted more than 5 million stops since 2002. Almost nine out of ten times, the person was not arrested, and fewer than 2% of frisked people were found with weapons.⁴¹

This rampant misconduct was challenged in a five-year-long lawsuit that concluded in 2013 when NYPD's stop and frisk policy was found to violate Fourth Amendment rights and constitute a "policy of indirect racial profiling." The judge stated that the NYPD "deliberately maintained and even escalated policies and practices that predictably resulted in even more widespread Fourth Amendment violations. ...The NYPD has repeatedly turned a blind eye to clear evidence of unconstitutional stops and frisks."⁴²

⁴² *Id.* at 658-659.

The New York Police, under the Bloomberg administration, had often raised the specter of an exponential surge in violent crime if the practice of stop and frisk was put to rest. However, the numbers of violent crime and robberies fell in the year following this court ruling.⁴³ In fact, New York saw just 332 murders in 2014—the lowest recorded number in the city’s history—even as the number of stop and frisks plummeted.⁴⁴

SEATTLE

Highly-publicized instances of excessive force and discriminatory policing in Seattle drew the attention of the DOJ, which began investigating the Seattle Police Department in 2011.⁴⁵ The DOJ found “a pattern or practice of unnecessary or excessive force in violation of the Fourth Amendment,”⁴⁶ which led to serious concerns that “some SPD policies and practices, particularly those related to pedestrian encounters, could result in discriminatory policing.”⁴⁷ Regarding street stops, the DOJ stated that “some data and citizen input suggest that inappropriate pedestrian encounters may disproportionately involve youth of color.”⁴⁸ It was noted that the police department failed to collect or analyze data about pedestrian encounters, which made it impossible to conclusively find that they were engaging in biased policing. Consequently, the DOJ brought a lawsuit against the City of Seattle, which resulted in a consent decree in 2012.⁴⁹ One requirement of that agreement was the collection of data to enable the analysis of trends.⁵⁰ However, the most recent monitor’s report stated that such a system of data collection has only recently begun to be developed.⁵¹ According to the report, the police department should develop and “robustly use a high-quality system and defined process for systematically analyzing data on stop activity,

as well as other law enforcement activity, to determine if any groups or classes of individuals are being subject to disparate impact.”⁵² SPD is now in the process of seeking bids for such a system. One highlight of the report, however, was that all SPD officers were on track to receive intensive training on stops, detentions and bias-free policing by the end of 2014, with more training to come in 2015.⁵³

BOSTON

The Boston Police Department provided independent researchers with over 204,000 reports of civilian encounters, including stop and frisks, that took place from 2007 to 2010.⁵⁴ These researchers looked into how race impacted stops and searches and how encounters were documented. Preliminary findings showed that 63.3% of these civilian encounter reports involved black residents, although Boston’s population is just 24.4% black.⁵⁵ The researchers also determined that, even controlling for factors like neighborhood crime rates or gang affiliation, officers were more likely to initiate encounters with black people, and they were also more likely to subject black Bostonians to repeated encounters and to frisks and searches.⁵⁶ Furthermore, anecdotal evidence suggests that police officers do not always fill out reports after stopping and/or frisking civilians.⁵⁷ And, as in Chicago, the data for arrests is kept separate from that for civilian encounters, making it impossible to determine how often a stop and frisk leads to arrest.

LOS ANGELES

In 2000, the City of Los Angeles entered into a consent decree after the Department of Justice accused the city’s police department of “engaging in a pattern or practice of excessive force, false arrests, and unreasonable searches and seizures

in violation of the Fourth and Fourteenth Amendments...”⁵⁸

Among other things, the consent decree required that the police department expand their data collection practices, including of both stop and frisks and traffic stops, which enabled researchers to investigate whether there were trends of racially biased policing.⁵⁹ A study prepared for the ACLU of Southern California found that during a one-year period from 2003 to 2004, black and Hispanic residents were far more likely to be stopped, frisked, searched and arrested than white residents, and that black and Hispanic residents who were searched were less likely to have contraband than white residents.⁶⁰

Exhibit 3

INVESTIGATORY STOP AND PROTECTIVE PAT DOWN SETTLEMENT AGREEMENT

WHEREAS, in April 2014, the Chicago Police Department (“CPD”) issued revised General Orders and directives to ensure that its policies and practices relating to investigatory stops and protective pat downs comply with applicable law, including the United States and Illinois Constitutions and the Illinois Civil Rights Act (“ICRA”). In connection with that effort, and prior to finalizing the revised General Orders and directives, CPD provided such orders and directives to the American Civil Liberties Union of Illinois (“ACLU”) for their review and comment.

WHEREAS, in early 2015, CPD commenced a further review of its policies and practices relating to investigatory stops and protective pat downs. In March 2015, while CPD’s review was pending, the ACLU issued a report entitled “Stop and Frisk in Chicago” that raised concerns about CPD’s policies and practices. On May 30, 2015, Senate Bill 1304 passed both houses of the Illinois General Assembly. If signed by the Governor, Senate Bill 1304 will impose new documentation requirements relating to investigatory stops and/or protective pat downs.

WHEREAS, pursuant to CPD’s continuing evaluation of its policies and practices relating to investigatory stops and protective pat downs, and in response to the ACLU report and Senate Bill 1304, CPD is in the process of further revising its policies and practices. CPD intends to have the revised policies and practices finalized and implemented on or before December 31, 2015, and to complete its training of its officers and supervisors with respect to the revised policies and practices on or before March 1, 2016.

WHEREAS, CPD believes that its policies and practices relating to investigatory stops and protective pat downs have been and will continue to be fully compliant with all applicable laws. Nevertheless, the ACLU has raised concerns about CPD’s policies and practices and has informed the City of Chicago of its intention to file a lawsuit challenging them.

WHEREAS, to avoid the burden, inconvenience, and expense of litigation, the City of

Chicago, CPD, and the ACLU (“the parties”) have agreed to work together to ensure and validate that CPD’s policies and practices relating to investigatory stops and protective pat downs fully comply with applicable law.

Accordingly, the parties agree as follows:

I. Data Collection

1. CPD will document all investigatory stops and all protective pat downs, including those that lead to an arrest, an Administrative Notice of Violation (“ANOV”), or other enforcement action, into an electronic digitized database. CPD’s current database documents all investigatory stops and protective pat downs that do not lead to either an arrest or an ANOV. As soon as reasonably possible thereafter, the database will be modified to also include investigatory stops and protective pat downs that lead to an arrest or an ANOV. For each investigatory stop and/or protective pat down, the electronic digitized database shall include:

a) the name and badge number of the officers who conducted the investigatory stop and/or protective pat down;

b) the race/ethnicity of the person stopped, selected from the following list:
American Indian or Alaska Native, Asian, Black or African American, Hispanic or Latino,
Native Hawaiian or Other Pacific Islander, or White;

c) the gender of the person stopped;

d) all of the reasons for the stop;

e) the location of the stop, including the address, beat, and district;

f) the date and time of the stop;

g) whether or not a protective pat down was conducted of the person, and if so, all of the reasons that led to the protective pat down and whether it was with consent or by other means;

h) whether or not contraband was found during the protective pat down, and if so,

the type and amount of contraband seized;

i) whether or not a search beyond a protective pat down was conducted of the person or his or her effects, and if so, all the reasons that led to the search, and whether it was with consent or by other means;

j) whether or not contraband was found during any search beyond a protective pat down, and if so, the type and amount of the contraband seized;

k) the disposition of the stop, such as a warning, an ANOV, or an arrest; and

l) if an enforcement action was taken (i.e., an arrest or ANOV), a record of the violations, offenses, or crimes alleged or charged.

II. Training and Supervision

1. CPD will provide training for officers and supervisors directed at ensuring that investigatory stops are conducted only where there is reasonable suspicion of criminal conduct and that protective pat downs are performed only where there is reasonable suspicion that the person stopped is armed and dangerous. Further, CPD shall train officers with respect to the electronic digitized database and their responsibilities to record all the relevant information for each investigatory stop and protective pat down. Where appropriate, new or revised General Orders and/or other directives will be issued by the CPD. CPD expects to issue such new or revised General Orders and/or other directives by December 31, 2015, and to complete the training of its officers and supervisors with respect to such General Orders and/or other directives, by March 1, 2016.

2. CPD will implement training policies and practices to ensure that investigatory stops and protective pat downs are conducted consistent with the following guidance provided by the U.S.

Department of Justice:

In making routine or spontaneous law enforcement decisions, such as ordinary sidewalk and traffic stops, Chicago Police Department officers may not use race, ethnicity, national origin, religion, gender, gender identity, sexual orientation, marital status, parental status, or military discharge status, except that officers may rely on the listed characteristics in a specific suspect description.

3. By January 1, 2016, CPD shall establish and enforce policies providing for continuous district-level supervisory review and quarterly or semi-annual department-level audits of CPD's investigatory stop and protective pat down practices. The CPD shall provide these policies and procedures to the Consultant (identified in Section V.I, below) and the ACLU for their review and comment, prior to their finalization. These policies and procedures shall include:

a) Continuous review by police district supervisors of all individual Investigatory Stop Reports to determine whether they state legal grounds for the investigatory stop and/or any protective pat down.

b) Quarterly or semi-annual audits by CPD headquarters staff of CPD investigatory stop and protective pat down practices. These audits shall include examination of: (i) the narrative sections of a statistically representative sample of individual Investigatory Stop Reports to determine whether they state legal grounds for the investigatory stop and/or protective pat down; (ii) records of supervisory corrections or rejections of Investigatory Stop Reports to identify officers who repeatedly fail to document investigatory stops and/or protective pat downs, or who conduct investigatory stops and/or protective pat downs without the requisite reasonable suspicion; and (iii) CPD documentation of civilian and internal complaints relating to investigatory stops and/or protective pat downs.

c) The establishment of re-training, enhanced supervision, or discipline of officers who engage in unlawful investigatory stops and/or protective pat downs or who violate CPD policies or procedures governing these practices. There shall be written documentation of all such re-training, enhanced supervision, or discipline.

III. Release of Data and Documents

1. Within 10 days of the execution of this agreement, all of the digitized information in CPD's electronic digitized database, including but not limited to the enumerated fields in Section I.1, shall be provided to the Consultant and the ACLU. Thereafter, the data shall be provided to the Consultant and the ACLU on a monthly basis on the first of the month. This information, and the information described in paragraphs 4 through 6 below, shall be kept confidential by the Consultant, the ACLU, and the persons identified in Section III.3 on an "attorneys eyes only" basis and shall not be disclosed by the Consultant, the ACLU, or the persons identified in Section III.3 for any purpose whatsoever other than to the extent the information is included in the Consultant's Reports and Recommendations described in Section V.2(f) below.

2. This agreement does not in any way limit the ACLU's rights under the Illinois Freedom of Information Act (FOIA). Moreover, if the ACLU receives information under this agreement that the ACLU believes it would be entitled to obtain under FOIA, the parties will work in good faith to seek agreement about whether that information would in fact be subject to release under FOIA. If the parties reach agreement, the confidentiality provision set forth in III.1 shall not apply. Any dispute about whether information disclosed pursuant to this agreement would be subject to release under FOIA shall be resolved by the Consultant.

3. Under the "attorneys eyes only" restrictions, the Consultant and ACLU may only allow the following categories of people to review the information: (1) counsel for the ACLU and employees of counsel who have responsibility for the execution of this agreement; (2) contractors specifically engaged for the limited purpose of making copies of documents or organizing or processing documents, including outside vendors hired to process electronically stored documents; (3) consultants or experts provided for in Section V.3 (the Consultant's experts); (4) consultants or experts employed by the ACLU to assist in the execution of this agreement, and (5) other persons only by written consent of the City. Prior to sharing the information with any outside consultants, experts, or others, the ACLU and/or the Consultant will obtain from that individual a signed agreement to abide by the confidentiality provisions set forth herein. The

ACLU and/or the Consultant will promptly provide the City with a copy of all such agreements.

4. CPD shall provide the Consultant and the ACLU all current and future training, policy materials, and supervisory materials described in Section II.

5. CPD shall provide the Consultant and the ACLU the quarterly or semi-annual audits conducted by CPD headquarters staff of CPD's investigatory stop and protective pat down practices described in Section II.

6. CPD shall provide the Consultant and the ACLU with all additional documents necessary to conduct an independent analysis and review of CPD's investigatory stop and protective pat down practices.

7. Absent the permission of the subject of the stop, the Consultant will redact all personal identifying information about the subject of stops from the Consultant's Reports and Recommendations. The redacted information shall be kept confidential consistent with Section III.1, above.

IV. Compliance with the United States and Illinois Constitutions and ICRA

1. CPD shall conduct investigatory stops and protective pat downs in compliance with the United States Constitution, the Illinois Constitution, and ICRA.

2. CPD shall be in substantial compliance with this agreement if any violations of its requirements are neither systemic nor serious. If a serious violation occurs, CPD shall be in substantial compliance if it promptly identifies the violation and develops and implements a timely and appropriate remedy that results in compliance.

3. After reviewing the data for the six-month period commencing January 1, 2016 and ending June 30, 2016, the ACLU and the City will work together to seek agreement on standards for substantial compliance with ICRA. If the ACLU and the City cannot agree, the Consultant will review the data and determine such standards after considering the respective views and submissions of the parties.

V. The Consultant

1. The Parties have jointly selected retired Judge Arlander Keys to serve as the Consultant of this agreement.

2. The duties of the Consultant are to:

a) Review and validate CPD's policies, practices, and orders regarding investigatory stops and protective pat downs, including but not limited to, CPD's training regarding investigatory stops and protective pat downs, CPD's method of supervisory review of investigatory stops and protective pat downs, and CPD's method of auditing investigatory stops and protective pat downs.

b) Recommend to the parties changes to CPD's policies, practices, and orders regarding investigatory stops and protective pat downs that are reasonable and necessary to comply with the law, including the United States Constitution, the Illinois Constitution, and ICRA. The Consultant shall consult with the parties before making such recommendations.

c) Review any other documents the Consultant determines are necessary to assess CPD's investigatory stops and protective pat downs, including but not limited to civilian complaints and disciplinary files regarding investigatory stops and protective pat downs (subject to any limitations contained in federal and state law and collective bargaining agreements).

d) On a semi-annual basis, commencing with the six month period starting January 1, 2016 and ending June 30, 2016, identify to the parties and review a statistically representative sample of Investigatory Stop Reports and assess whether the narratives state sufficient facts to establish the requisite reasonable suspicion for the investigatory stop and for any protective pat down.

e) On a semi-annual basis, commencing with the six month period starting January 1, 2016 and ending June 30, 2016, review aggregate Investigatory Stop Report data to determine whether the standards for substantial compliance set forth in Section IV.2 have been met.

f) On a semi-annual basis, commencing with the six month period starting January 1, 2016 and ending June 30, 2016, provide to the parties a written Report and Recommendations based on his or her review of the above materials. These Reports and Recommendations will include an assessment

of whether the CPD is in substantial compliance with this agreement. The Reports and Recommendations will also identify any further practices, policies and other measures that the Consultant recommends are needed to ensure that CPD investigatory stop and protective pat down practices and policies are in compliance with the United States Constitution, the Illinois Constitution, ICRA, and this agreement. The parties will have 30 days to serve each other and the Consultant with objections to each Report and Recommendations. The Consultant will then have 30 days to make any revisions to the Report and Recommendations before making it public.

3. The Consultant may seek the advice and assistance of police practices and statistical experts in formulating the Reports and Recommendations. The City shall compensate the Consultant and any experts he or she shall retain for their professional services and reasonable expenses. Any experts utilized by the Consultant will be subject to the confidentiality provisions set forth in Section III.1.

VI. Other Terms

1. The parties acknowledge that this agreement is not an admission of liability on the part of the City and/or the City's future, current, or former officers, agents, and employees, and shall not serve as evidence of the validity or invalidity of any claims that have been or might be brought in litigation against the City and/or the City's future, current, or former officers, agents, and employees.

2. In consideration of this agreement, the ACLU agrees not to either file as a party or join as a party any lawsuit challenging CPD's policies or practices relating to investigatory stops and/or protective pat downs while this agreement remains in effect.

3. This Agreement shall remain in effect until June 30, 2017, upon a finding by the Consultant of substantial compliance as defined in Sections IV.2 and .3 for one year preceding that date. If the Consultant finds at that time that CPD has not been in substantial compliance, this agreement shall be extended until the Consultant finds that CPD has been in substantial compliance with this agreement for one year. Any party may terminate this agreement at any time.

4. Any dispute as to the meaning or interpretation of this agreement will be resolved first by the Consultant. If, after an interpretation by the Consultant, either party wishes, they also may seek interpretation in the Circuit Court of Cook County.

5. This agreement contains the entire agreement between the parties and the parties mutually agree that this agreement shall be binding upon and inure to the benefit of the parties, due consideration having been given and may be enforced like any other contract. The parties agree that in the event of a breach of this agreement, there will be no adequate remedy at law and that this agreement may be enforced through a suit for specific performance.

6. The person signing the agreement represents and warrants that he or she is authorized to sign on behalf of the party for which he or she is signing and that the agreement as signed is binding on that party.
