Ecstasy Seized	137g (4.8 oz)
Ketamine Seized	230g (8.2 oz)
Psilocybin Mushrooms Seized	250g (8.9 oz)
Weapons Seized	7
Untaxed Cigarettes	207 cartons (2,070 packs)
Vehicles Seized	10
U.S. Currency	\$525,557.00

2013 Training Concepts Offered:

Hands-on training opportunities provided in the area of legal and professional interdiction methods through aggressive traffic enforcement and high visibility policing.

- Search and Seizure (ISP Legal Division)
- Trend and Interdiction Awareness Updates
- Case analysis
- Legal and professional consensual encounters as related to Community Oriented Policing
- Self-actuated policing / Patrolling with a Purpose – Accountability

INTENT

The Illinois State Police serves as a critical line of defense combatting criminals utilizing Illinois highways, byways, and other public areas in the furtherance of criminal/terroristic activities.

Safeguard the public through the enforcement of traffic and criminal laws while maintaining positive partnerships with the citizens of our communities.

IDENTIFY, INVESTIGATE, INCARCERATE

10-95

INVEST in the BACKBONE of the Illinois State Police

Stabilize the FOUNDATION

Phase 1 CRIMPAT/Valkyrie

10-95

CRIMPAT / VALKYRIE PHASE 1

Core 1:

Introduction / Intent / Overview – overview of the baseline concepts of Illinois State Police Criminal Interdiction.

CRIMPAT / VALKYRIE - PHASE 1

Core 2:

Legal / Policy – this section is designed to highlight the legal concerns which arise from police-citizen encounters where the officer is required to both balance the Constitutional rights and protections of the citizen yet complete adequate enforcement which is fair, impartial, and in the best interest of society.

This section includes applicable Illinois State Police and Policy and Procedures as it pertains to criminal interdiction.

CRIMPAT / VALKYRIE PHASE 1

Core 3:

Traffic Stop / Indicators / Items of Interest / Case Analysis / Video / Report Writing – this section is designed to deliver real life information gathered by field officers during incidents where criminal activity was uncovered, contraband was seized, and subjects were arrested.

After completing this section, students will have been exposed to a variety of real life roadside encounters where suspects were arrested while involved in criminal activity. Students will witness first hand observations utilized by the arresting officer which led to a roadside criminal investigation which ultimately disrupted criminal activity. Students will be briefed on the applicable steps employed by the officer to complete the investigation and arrest.

CRIMPAT / VALKYRIE PHASE 1

Core 4:

Commercial Motor Vehicle – designed to highlight the use of commercial motor vehicles in the movement of mass contraband and furtherance of other types of criminal or terroristic activity

CRIMPAT / VALKYRIE PHASE 1

Core 5:

Vehicle Searching – designed to highlight safe, effective, and profession vehicle search techniques.

Criminal Interdiction

ALL crimes .. ALL the time

Phase 1 CRIMPAT / Valkyrie

Phase 1 CRIMPAT / Valkyrie is an officer awareness course designed to increase an officer's likely-hood of recognizing and uncovering concealed criminal activity by:

- Educating officers as to the baseline concepts of criminal interdiction.
- Highlighting legal and professional interdiction philosophies utilized by interdiction officers across the United States.
- Providing officers with techniques which allow for the recognition of inconsistencies in comparison with the innocent public.

ROAD OFFICERS ARE :

The LAST line of defense.

Criminal / Terroristic offenders are most vulnerable while "IN-TRANSIT"

The trained patrol officer proactively operating in a constant state of heightened awareness stands the best chance to uncover concealed criminal or terroristic activity.

It is:

Criminal Interdiction

not just

Drug Interdiction

Criminal Interdiction

ALL crimes .. ALL the time

10-95

CRIMINAL PATROL

- Terroristic activity
- Crimes against persons
 - Human trafficking
- Deadly weapon trafficking
 - Identity theft
- Abduction related crimes
 - Theft of property
 - Illegal drug crimes
 - Impaired driving
- Illegitimate currency transport
- Apprehension of Fugitives
 - All other crimes

CRIME

- 1 homicide every 31 minutes
- 1 aggravated assault every 32 seconds
- 1 violent crime every 20 seconds
- 1 crime of some sort every 3 seconds

How it's done.....

ENGAGE

High Volume Citizen Contacts

Patrol with a purpose

HEIGHTENED AWARENESS

Enhanced observation skills gathered from prior training and experience enable officers to recognize situations which are not consistent with the average innocent public.

Considering each incident in it's ***"Totality"***

Base observations on:

Prior Training

Prior Experience

Special Knowledge

10-95

RELENTLESS
RELENTLESS

The most valuable tool in law enforcement is the nose, diligent, well trained police officer

CRIMPAT / Valkyrie Program GOALS:

- Facilitate a training outlet designed to educate and motivate officers to look beyond the traffic stop when suspicious circumstances are observed.
- Build a foundation of well-trained and experienced frontline officers capable of identifying concealed criminal activity.
- Implement advanced interdiction techniques designed to develop officers and provide them with the skillset to identify and disrupt major criminal activity.
- Increase highway interdictions of major trafficking organizations.
- Provide officers with the skillset to further roadside criminal investigations.

PATROL CONCEPT

Aggressive traffic enforcement with officers trained to recognize indicators of concealed criminal activity and its multi-tiered purpose for the Illinois State Police

- The use of trained officers conducting highly visible traffic operations creates an omnipresence of police activity as witnessed by the public.
- This proactive style of policing coupled with an officer's prior training, experience, and special knowledge both reduces the likelihood of traffic crashes while simultaneously increasing an officer's opportunity to encounter and recognize individuals involved in criminal or terroristic activity.

3 MAJOR PUBLIC SAFETY CHALLENGES: violent crime , traffic safety, drug crimes

ATTACK THEM ALL

- 1 fatal crash every 13 minutes
- 1 personal injury crash every 16 seconds
- 1 vehicle crash every 5 seconds

Traffic crashes are the # 1 killer of people ages 15-24

The BOTTOM LINE

Illinois State Police Criminal Interdiction Program focuses on traffic safety and fatality reduction while utilizing officers specialized in criminal interdiction to **intercept** and **disrupt** those involved in criminal or terroristic activity.....

Be the POLICE

OBJECTIVES

An understanding that criminal cases stemming from traffic stops or citizen contacts are based heavily on the

totality of all the circumstances

revolving around the incident.

OBJECTIVES

An understanding of the concept regarding effective patrol techniques to include *high volumes* of traffic stops for **ALL** violations of the Illinois Vehicle Code.

There is no such thing as a “MINOR” violation. A violation is cited in the Illinois Vehicle Code because it is a hazard to the public. ENFORCE them ALL.

OBJECTIVES

An understanding and strict adherence to the Illinois State Police Policy prohibiting the concept of improperly biased law enforcement.

OBJECTIVES

Officers will utilize their prior training and experience while considering each incident in it's *totality* when initiating criminal investigations.

PUT 'EM ON THE SHOULDER !

High Volume of Traffic Stops

High Volume of Citizen Contacts

builds **BASELINE**

BASELINE

WHY is it important?

It is your **FOUNDATION**

It is your **EXPERIENCE!**

BASELINE

PI / Fatal Crash Reduction – proactive policing creates an omnipresence of law enforcement on the highways thus positively impacting traffic safety

Increases Familiarity – allows officers to recognize what is consistent in their area of responsibility

Highlights Inconsistencies – enables officers to more easily recognize activities which are not consistent with the average innocent public which they encounter daily

Increases Chance to Encounter Criminal Offender – applies the concept that the more contacts an officer has with the public, the higher the odds are that the officer will encounter a criminal offender

Builds Credibility – provides a foundation for an officer to stand upon when articulating why he/she became suspicious of criminal activity and initiated steps to investigate such activity

IMPROPERLY BIASED BASED POLICING

It is ILLEGAL, unethical, and it simply does not work..... !

Plate shopping is bad business

TRAFFICKING

Source Location: A location known to be the origin of illegal drugs.

Transshipment Point: A location where large shipments of illegal drugs are received before being broken down and dispersed

- Chicago, IL
- St. Louis, MO
- Indianapolis, IN
- Columbus, OH
- Detroit, MI

Where does it come from?

Most of the drugs that enter the U.S. come from Central and South America

Source

Mexico is the transit point for the largest source of illegal drugs and the largest consumer, North America.

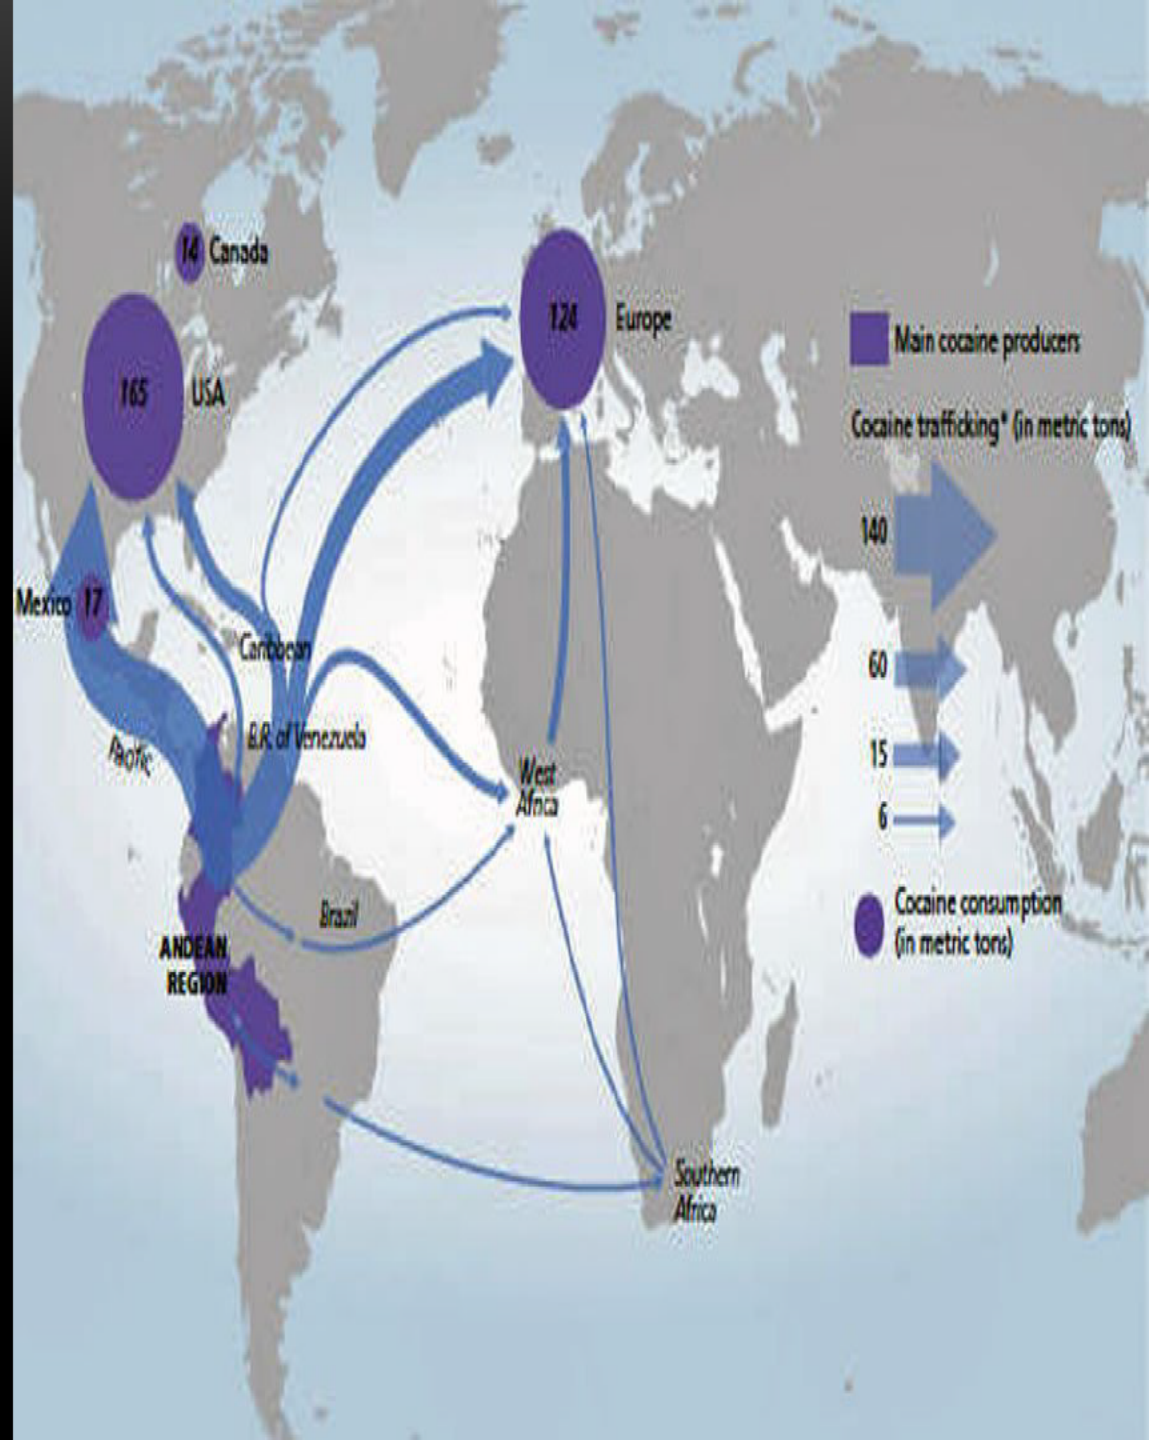

Major Corridors into the United States

Cocaine Imports

95% of American cocaine imports are brought by Mexican Drug Cartels through Mexico and Central America

Drug Shipments

Heroin

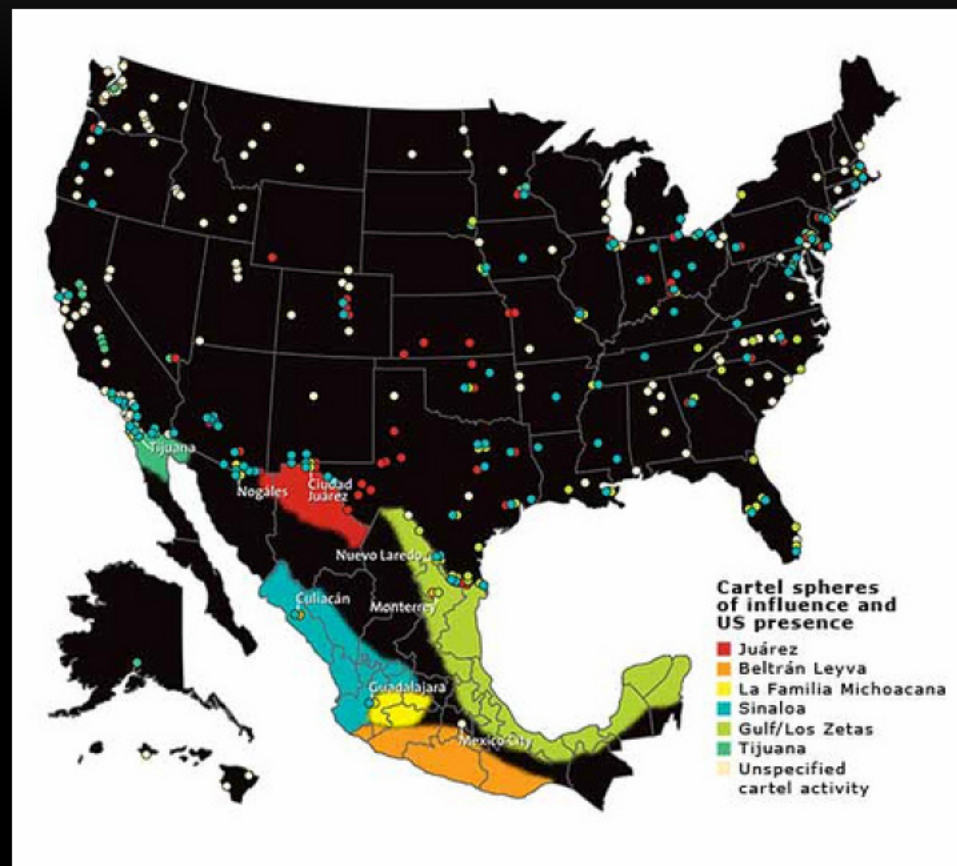

FYI

As of 2009 the National Drug Intelligence Center (NDIC) assessed that Mexican drug trafficking organizations (DTOs) were operating in the U.S. in at least 1, 286 cities spanning nine regions. Moreover, NDIC assesses with high confidence that Mexican DTO's in at least 143 of these U.S. cities were linked to a specific Mexican Cartel or DTO based in Mexico—the Sinaloa Cartel (at least 75 cities), the Gulf Cartel/Los Zetas (at least 37 cities), the Juárez Cartel (at least 33 cities), the Beltrán-Leyva DTO (at least 30 cities), La Familia Michoacán (at least 27 cities), or the Tijuana Cartel (at least 21 cities). NDIC assesses with high confidence that Mexican DTOs will further expand their drug trafficking operations in the United States. Due to the rise in violence throughout the Southwest Region and Mexico, members of the Cartels, their associates and their families have been suspected of moving into many U.S. cities along the border

The bottom line: the traditional “Drug Cartel” is ALIVE and FUNCTIONING in the U.S.

Interstate Highway System

10-95

THE BOTTOM LINE

Criminals, including domestic and foreign terrorists, are literally at our fingertips during enforcement stops and citizen contacts.

Officers exercising the powers of observation, combined with proper training and experience, will identify these offenders and subsequently interrupt their activities.

This will disrupt the flow of contraband, increase intelligence gathering, and dismantle criminal organizations.
